ARABIC ACTIVITY BOOK

Learn the Arabic Alphabet

Teacher Tips

- ★ **Teach your child how to read the Qur'an to please Allah (بجانه وتعالی), and ask Allah to make your journey easy and enjoyable.**
- ★ **Study this book together with your child, praising and encouraging them along the way.**
- ★ **Find a quiet and well-lit place to study. Stop before your child grows tired.**
- ★ **Study at the pace of your child, one or two pages a day. Move on only when your child has mastered the previous letter.**
- ★ **Don't expect your child to read any of the Arabic words in this book. You should encourage them to listen to and say the sound at the beginning of these words. The bold word next to each Arabic word is its brief translation.**
- ★ **If your child finds it difficult to write the letters, encourage them to use their finger to trace the letters instead. This helps with letter recognition.**
- ★ **An example of how to teach this book: "This is the letter Alif. It makes the sound aa aa, as in a-sa-dun. Can you try to say aa-aa, a-sa-dun?"**

After learning the whole Arabic alphabet, cut out the Arabic alphabet cards and practise more by using them to make words and playing games such as SNAP and MEMORY MATCH.

السلام عليكم

Welcome to Little Qari's Arabic Activity Book

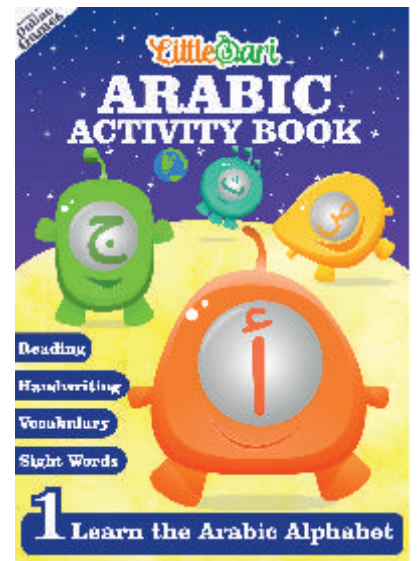

Before starting this book, children do not need to have any prior knowledge of the Arabic language. InshaAllah, they will be introduced to all the letters of the Arabic alphabet.

We aim to teach children Arabic in a fun and interactive way to enable them to recite the Qur'an with love, confidence and to have a basic understanding of what they read.

Each page has a blank star for your child to colour or place a star sticker on after completing the activities.

If your child enjoys this then they will love the Little Qari Activity Book which is in full colour and has much more reading practice. It also includes fun stuff like flashcards and posters.
